

b in charge

bproauto® batteries offer high-quality, long-lasting performance that cover most makes and models. They deliver a best-in-class vent, industry best intercell weld and are backed by up to a 2-year warranty¹ so you can recommend them to your customers with the upmost confidence.

bproauto batteries offer the most modern battery features, are corrosion-resistant and deliver long-lasting performance.²

- **Best in class vent**

reduces leakage and corrosion

- **Negative paste formulation**

performance, lifespan and flaking resistance

- **Patented stamped positive grid**

optimized for conductivity, precision and corrosion resistance

- **Ultra-safe patented side terminals**

reduce chances of over torque and weld damage

- **Industry-best intercell weld**

for longer life

- **Robust envelope separator**

resists puncture, improves acid circulation and keeps battery cooler

- **Rolled lead alloy**

resists corrosion and extends lifecycle in high temperatures

Be a one-stop power shop

KIT CONTENTS

All hardware required for installation

- **Majority coverage of most vehicles**
- **Competitively priced**
- **Tested to O.E. standards**
- **Large and readily available inventory**

bproauto batteries deliver long-lasting power and the bproauto battery lineup offers 30 part numbers to cover more than 91% of the total North American market.

Conditions for replacement

Extreme cold, Heat, and vibration affects battery life.

Testing is an important part of understanding battery health.

Ready to install

1. Warranty varies depending on battery.

2. Subtle manufacturing differences may apply.
